LOCAL DEPARTMENT.

PROVISIONS.—A number of Canadian gentlemen are in our city for the purpose of purchasing provisions.

FOUNDATIONS.—Our stone masons are as busily engaged in laying foundations as though spring-time had really come.

LADY'S ALMANAC FOR 1857.—This is an exceedingly neat little almanac, with a diary attached and its title no misnomer. Carnes & Wilson, No. 134 Lake street, have them for sale.

DEARBORN PARK.—Yesterday a large number of lads and lasses were having a frolic on the ice, which just now covers Dearborn Park. It is high time that piece of ground was improved.

OPENING NAVIGATION.—The government steam dredge was yesterday engaged in opening a channel in the ice at Wells street bridge, for the passage of vessels. The river is open below this bridge.

SALT DESTROYED.—So far as we can learn, some twenty thousand bushels of salt was destroyed by the freshet of last Saturday. It was mostly owned by packers.

LARCENY OF A COAT.—C. A. Willard was arrested yesterday upon a charge of stealing a coat from T. Grayson, of No. 137 Michigan street. The accused was sent before the Grand Jury for indictment.

NEW MUSIC.—Messrs. R. K. Mould & Co., No. 83 Lake street, have just published the "Bridal Bells Schottische," composed by Antonio de Anguera, a pleasing composition.

CHURCH OF THE ATONEMENT.—The Bishop of the Diocese will preach and administer confirmation in this Church Sunday morning next. Services at 10½ A. M. and at 7 P. M.

LARCENY OF PORK.—John McCanna was yesterday arrested upon a charge of stealing pork from Messrs. Briggs, Ewing & Co's storehouse, No. 16 River street. He was sent before the Grand Jury for indictment.

BUY YOUR HAY.—The hay market is now well supplied, large quantities being brought in while the roads are good. This is the time to purchase your hay, as the roads will soon be anything but good. See commercial column for prices.

CORRECTION.—Charles Nocking desires us to state that he is not the proprietor of the saloon on State street in which a row occurred on Thursday. He only went bail for the bar keeper who kicked up the rumpus.

THE SHIP YARDS.—Our ship builders are just now hard at work repairing and repainting vessels, and the river presents a lively appearance. The sound of the caulking mallet may be heard in every direction.

POLICE COURT—FRIDAY.—George Beatley was fined $5 for driving a hack without lights. For being drunk and disorderly, Joseph Walters and John Kaskey were fined $2 each; John Conway, James Beckley, Charles McGuire and James Holbrook, $3 each.

CHICAGO, ST. PAUL AND FOND DU LAC RAILROAD.—Trains are running regularly on this road. The recent storm did no damage to the bridges and culverts of the company, and not a single trip has been lost.

ANOTHER NEW HOTEL.—Mr. Yulick, one of our wealthiest German citizens, has just erected a large four story hotel building on South State street, near the Orphan Asylum, about two miles and a half south of the river.

FOR EUROPE.—The Canadian schooner Andrew Stevens has been chartered to sail from this port to Glasgow, in the spring, with a cargo of provisions. Messrs. Rogerson & Walker chartered her to Messrs. Barry & Co. We learn that negotiations are pending for the charter of several other vessels to sail from this port to Europe.

LARCENY OF PANTALOONS.—Yesterday morning, F. Quinn, Merchant Tailor on Michigan street, hung out several pairs of pantaloons at the side of his door and discovered a few minutes afterwards that they had been stolen. The pantaloons were found secreted under a pile of hose in Engine House No. 8. The thieves managed to escape detection.

HEAVY VERDICT.—A suit which has been pending for some time in the Common Pleas Court—Newkirk vs. Lee—was decided yesterday. The contest was as to the ownership of a piece of property valued at $60,000, being eighteen and one-eighth acres in section 18, town 39, range 14, in West Chicago. A verdict was rendered for Newkirk.

A NEW BATHING HOUSE.—We are glad to learn that the projected summer Bathing House is to be at the foot of Washington street outside the railroad tracks. Chicago has long needed an establishment of this kind and it should receive a most liberal patronage. We have seen the plan of the building and find it both tasteful and appropriate.

CHURCH NOTICE.—The annual renting of pews in the Jefferson street Methodist Episcopal Church will take place to-morrow evening (Feb. 14) at 7½ o'clock. Pew holders and friends who desire seats in this church the present year, or for only part of it, are invited to be present. By order of the Trustees.

LECTURES TO YOUNG MEN.—To-morrow evening, at the Unitarian Church, Rev. R. R. SHIPPEN will deliver the first of four lectures to young men. Subjects: Opportunity, Culture, Service and Character. Mr. SHIPPEN is one of our ablest divines, and himself a young man, he is in a position to appreciate the thoughts, desires and difficulties of young men, and his lectures will no doubt be especially interesting and instructive.

THE CHURCHMAN'S DIARY FOR 1857.—This little book has an ecclesiastical calendar attached and contains notices of anniversaries and meetings of church institutions; also, a variety of other information useful to churchmen, and a blank space for memorandums for each day in the week. For sale by Carnes & Wilson, No. 134 Lake street.

☞ Those Overcoats, Velvet Vests and other styles of heavy Winter Clothing which TAPPEN BROS., 49 Clark street, are SELLING OFF AT COST, are the best in town—equal to New York custom work in all respects, and warranted to give satisfaction.—The attention of our readers is also called to their splendid assortment of SPRING STYLES OF BUSINESS COATS, etc., just received per express from their manufactory in New York.

PROPERTY IN NEW YORK CITY AND CHICAGO.—The ground upon which Burton's Old Theatre stood, in Chambers street New York, was recently sold for $2,500 per foot front. Lots in this city, of the same depth, situated on Lake street in the neighborhood of Clark street, are worth about $1,500 per foot front,—a difference of $1,000. Property in Chambers street is not considered as strictly first-class.

REAL ESTATE SALE.—T. B. Bryan, Esq., recently sold to C. B. Hosmer, Esq., the lot corner of Michigan Avenue and Harrison street, 56 by 132 feet, for $23,500—$8,440 payable May 1st, 1857; $3,000 payable Jan. 1st, 1858; and $6,000 payable in two years, and the balance payable in ten years, all at ten per cent per annum interest.

Mr. Bryan also sold to Mr. Folsom Dorsett 36 by 132 feet corner of Michigan Avenue and Congress street for $5,000—$10,000 cash, balance on ten years time, at 10 per cent. interest.

COWARDLY ASSAULT.—The proprietor of the Girard House, while passing the corner of Lake street and Wabash Avenue, on Wednesday evening, about 7 o'clock, was approached from behind by some cowardly ruffian, and knocked down with a club.—The blow fell upon the right side of his head, making a severe wound. Had it not been for his shawl, which he had over his head, the blow would probably have killed him. Immediately after the blow was given, the perpetrator took to his heels down Wabash Avenue. He was pursued, but owing to the darkness, (the street lamps not being lighted,) he made his escape.

SATURDAY AFTERNOON CONCERTS.—On this afternoon Mr. Ahner gives the last but one of the third series of his afternoon concerts, and the excellent programme selected for this occasion should attract a large audience. The following is the programme: Gipsey March, arranged by C. Bergmann; Variation for the violin, Beriot, performed by T. Bichel; Overture, Die Zauber Flote, Mozart; Ella Polka, (new), Strauss; Ave Maria, Schubert, arranged by H. Ahner; Solo for the Piano, Notturno by Dohler, performed by Mr. Perabeau; Chorus and Aria, from Verdi's Opera of I Masnadieri; Adelaide, Beethoven, for Cornet and Piano, performed by H. Ahner; Overture, Nebuchadnezzar, Verdi.

CHICAGO AND ROCK ISLAND.—A passenger train will leave this city every morning at 7 o'clock for Rock Island, until further notice. This train connects with a train on the Illinois Central road at Lasalle, taking the passengers to Mendota, thence by the Chicago and Burlington road to [illegible] and thence over the Rock Island road to [illegible]. Passengers for points West of Mendota on the Chicago and Burlington road, are carried by this route. The Chicago and Rock Island road will again be in running order its entire length in a few days.

LETTER FROM THOMAS H. BENTON TO THE YOUNG MEN'S ASSOCIATION—HIS LECTURE IN THIS CITY.—J. Howland Thompson, Esq., Chairman of the Lecture Committee of the Young Men's Association, has received the following letter from Hon. Thomas H. Benton, relative to delivery of his promised lecture before the Association:

WASHINGTON CITY, Feb'y 9th, 1857.

MR. THOMPSON—*Sir*: Your letter reminding me of my promise to visit Chicago, and your suggestion that "enamoured of New England I might forget the West," has been duly received; and in answer to it I have to say, that I confess to the one-half of your suggestion, and traverse the remainder. I am pleased with New England; that is certain; but do not forget the West, and mean to comply with my promises there, but the time when, is the question. Time is every thing with one, and in that item New England has had double as much as I had intended for her—two months instead of one,—tho' not so much as she asked, and I desired, many invitations remaining uncomplied with, and many things but half seen. But I have seen enough to make me pretty well acquainted with the people, and to know that they will extend hospitable treatment to all Southern visitors, and give cause of segregation to no Southern State.

I mean to comply with my promises to the West; but the time when, is the question. I have about four dozen invitations yet on hand for this side of the mountains, and set out to-morrow to begin to comply with them, which will require as many dozen days; so that it will be the last of March before I can get to the West, where I have about two dozen more; and all this on the back of two months in New England. Add to this, that I am engaged in abridging the Debates of Congress—of which my publishers, (the Messrs. Appleton, of New York,) have just brought out the first volume, and now have the second one in the press, to come out this spring;—also, that I am under engagement to furnish material for an additional volume every two or three months, until the whole fifteen are produced; and, also that I have another volume to add to the "Thirty Years View," making Forty Years View, and to include the present times, and from 1850 to 1860. Put all this together and you will see that I have work enough on hand to account for some delay in getting to the West, without having to forget a promise. I write history, and wish it to be veracious, and spare no labour to make it so; and if I am to write of a great and calamitous event, I wish to have no error in tracing the calamity to its right source.

And now, Sir, as I have no time to write twice on the same subject, and as there are many in the West who will need the same information which I give you, I have to request that you will publish this letter, for their benefit and my relief; and so add to the obligations you have conferred on your obliged fellow citizen,

THOMAS H. BENTON.

RECORDER'S COURT.—The only case tried in this court yesterday was that of William H. Fuller, upon an indictment charging him with perjury. It appears that Fuller was the stake holder in a race between *Reindeer* and *Ike Cook*, and that the judges decided Cook had won the race; but, nevertheless, Mr. Morgan, the owner of Reindeer, notified Fuller not to give up the stakes, as he was dissatisfied with the ruling of the judges. Fuller gave up the stakes and Morgan brought a suit against him in the Circuit Court to recover the money. When the case came on for trial, Fuller made an affidavit that he expected to prove by a Mr. Runyon, who was at that time absent from the city, that he paid the money over before Morgan notified him not to do so; and by this means the case was continued.

The indictment is for false swearing in making the affidavit. The entire forenoon was taken up in an attempt to quash the indictment. The case will be concluded to-day.

CRUSHED TO DEATH.—The *North-Western Home Journal*, of this city, learns that "John B. Mitchell, of Maine, in this county, was crushed to death in the woods on the 3d inst. It seems that he had repaired to the woods with his team for a load of logs, and on his return the sled upset, throwing him off the load, and the heavy logs rolled upon him, crushing him instantly. It was supposed he had been dead about an hour when found. Mr. Mitchell was a nephew of Hon. George F. Foster, and was one of the most promising young men in the country."

GARDEN CITY LODGE.—At the annual election held at a regular communication of Garden City Lodge Ancient Free and Accepted Masons, on Wednesday, the 13th of February, A. D. 1857, the following officers were elected:

F. HUDSON, W. M.

P. C. LUST, S. W.

E. C. HURD, J. W.

E. L. O'HARA, T.

WM. VARIAN, S.

DESTRUCTION OF ROADS AND BRIDGES.—The effect of the great rain storm is felt severely in the county. A gentleman from Ellington informs us that the storm did more than a thousand dollars damage to the roads in that township. Three new culverts and a bridge were swept away on Friday night. It is represented that great damage was done to the wheat fields by washing.—*Quincy Whig, 9th.*

MISSOURI AND MISSISSIPPI RIVERS.—A speedy opening of the Missouri is anticipated, and packet boats will soon commence making regular trips from Alton and St. Louis. The Mississippi is comparatively free from ice, and navigation has been resumed below Alton.

RELIGIOUS NOTICES.

☞ There will be services to-morrow, at St. James's Mission, corner of La Salle and Erie. state, at 9¾ A. M. and 7½ P. M. Seats free.

THE APOCALYPSE.—Rev. M. Hibbard, Pastor of the Chicago Society of the New Jerusalem, will deliver the first of a series of Lectures on the Apocalypse, or Book of Revelations, at their place of worship, Nos. 69 and 71 Adams street, to-morrow, (Sabbath) evening, commencing at half-past 7 o'clock. feb14

EDITORS CHICAGO TRIBUNE:—Give me leave to say two or three lines for the benefit of Fiske & Co. through your columns, in reply to their communication of to-day. I have never made application to Mr. Bacon for his milk, since I refused to accept it on the grounds of its impurity; and Mr. Bacon's assertion to that effect, if made at all, as Mr. Fiske assures us, is false. The balance of Mr. Fiske's article is answered by the following affidavit.

FLOYD HIGGINS.

State of Illinois—Cook County—ss.

N. P. Conner being duly sworn doth depose and say, that he was in the employ of D. E. Fiske & Co., milk dealers, of the City of Chicago, as milk pedler, from the 26th of April, 1856, to the 22d of November, 1856, inclusive; that from and after the 1st of September, 1856, until the deponent left their employ, the milk of Fiske & Co. was uniformly adulterated—the amount of such adulteration averaging *at least* two gallons to each can of milk; during a part of the time this deponent was in the employ of Fiske & Co., they used still-slop milk, and continued so to use it so long as he was in their employ—adulterating it the same as their country milk; this deponent further says, that since he left peddling milk as aforesaid, he has been informed by other pedlers in the employ of Fiske & Co., that they continued to adulterate their milk, and to a greater extent than when this deponent was in their employ.

SAFETY AND RELIEF.—Old Dr. H. James, about whom the New York and other Atlantic city presses have said so much, has retired from practice, but Dr. Thomas Tilton, his son-in-law, has been educated to travel for him and dispense his invaluable medicines. Most prominent among these is his Extract of Cannabis Indica, which he discovered, after hard labor and deep research, in Calcutta. He strove to make a medicine to save his only child from death by consumption, and he succeeded. Dr. Tilton, his son-in-law, is in Chicago (Room No. 11, Massasoit House,) a few weeks, and cannot stay a great while longer. He has already succeeded in curing permanently hundreds of terrible cases of consumption, nervous debility and suffering, asthma and bronchitis. The colds and coughs he has banished are innumerable. The Cannabis Indica is the most wonderful blessing of the age. Give Dr. Tilton a call. He will prove to you that you need not be sick, and that it will cost you a mere trifle to get well.

N. B.—A Spiro-Dynamometer to test the strength of the lungs, and ascertain the exact state of the patient's health.

P.S.—By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four stamps, (12 cents,) a recipe will be sent in return free of charge to any part of the Union.

MINNESOTA.—The Governor of Minnesota, in his Message to the Legislature, shows the population of the Territory to be 180,000. The taxable property amounts to between thirty and thirty-five millions of dollars. In view of these facts, and of the large increase of agricultural products, cash capital, &c., the Governor favors a change from a Territorial to a State Government, and recommends that the requisite action, consistent with other interests, should be taken to accomplish this end.

The steamer Sierra Nevada arrived there on the 21st ult., and departed a few days after for San Francisco.

The Captain of the Sierra Nevada reports he saw Walker at Rivas Jan. 17, and then the allies had not taken Virgin Bay as reported by the British steamer Greytown, nor had they made any attempt upon San Juan del Sur. Walker had an effective force of 1200 men and strongly fortified at Fort Rivas, where he has a foundry for casting balls. The Nicaragua route, however, is broken up. Walker had not heard of the capture of his steamers up to Jan. 17, but suspected something wrong.

The revolution in Peru progresses, the insurgents drawing gradually nearer to the capital. An insurgent fleet entered the harbor of Callao Dec. 31st, and had a slight skirmish with the forts, and a government steamer, in which several foreign vessels, including the American bark Juvenile were injured. The English steamer Tribune and a French frigate interfered for the protection of foreigners, when the insurgents hauled off, leaving only the steamer Apamac anchored in the harbor. A French sympathiser with the insurgents, was arrested, having in his possession important papers. Intercepted letters from Gen. Vivanco to his wife, are said to implicate the British and American Ministers. The revolutionists had taken possession of the Chincha Islands.

Another unsuccessful attempt at Revolution had been made in Bolivia.

NEW YORK, Feb. 13.

The steamship City of Baltimore arrived here last night. She left Liverpool Jan. 28th.

The Niagara arrived at Liverpool on the 28th ult.

The news is four days later than previous advices.

It is reported that on the British taking Bushare, which they did after two hours' bombardment, the Persians submitted to the demands of their opponents.

The English papers, however, do not credit it. The *Daily News* says: We learn from good authority that a telegraph message from Lord Stratford de Radcliffe was received at the Board of Control to the effect that the Shah has accepted the terms of peace offered by England, not on account of the fall of Bushare but on general grounds.

Great doubts are thrown over the recent news of the burning of the factories at Canton, and later intelligence from China is anxiously looked for.

Rumors of modifications in the composition of the British Cabinet continued to be promulgated.

The Emperor of Austria had granted a complete amnesty for the Lombards Venetian Provinces.

The conference at Constantinople respecting the Principalities had ended, and the Austrian troops were to be replaced by Turkish soldiers.

The *Independence Belge* says that the conference on the Neufchatel question will take place in the middle of February.

Férok Khan, the Persian ambassador, had an interview with Napoleon. The reply of the latter was non-committal.

WASHINGTON, Feb. 13.

SENATE.

Mr. Bell, of Tennessee, gave notice of his intention to introduce a bill providing for a just and fair distribution of the proceeds of sales of public lands among all the States according to their respective population.

On motion of Mr. Weller, a resolution was adopted requesting the Secretary of War to communicate copies of all the reports which may have been made to that Department by the officers who were sent to the seat of war in Europe, in '55 and '56.

Several private bills were passed.

Adjourned.

HOUSE.

The House passed a bill granting a pension to Blackman, who acted as a spy in the war of 1812. Among many reports of a private character was one by Mr. Chaffee, from the Committee on Patents, extending Hayward's India Rubber Patent 7 years. He moved the previous question and its passage, but other business interposed to prevent a vote.

Messrs. Paine and Edie made adverse reports in which they assume Hayward is not the original inventor; that the rights of all persons manufacturing by the process described, since a patent granted to Goodyear, in 1843, are not protected in the bill; that Hayward has amassed large wealth by his association with a combination.

The Committee is equally divided—Smith of Tenn., not signing either report.

Washington News.

WASHINGTON, Feb. 13.

Joseph C. Bond, of Boston, a son of Prof. Bond of Cambridge, was seriously injured last evening by a blow with a slung-shot as he was passing a vacant lot on Pennsylvania Avenue. The ruffian escaped without effecting his supposed purpose of robbery.

The Joint Committee appointed by the two Houses to wait upon Buchanan and Breckinridge to inform them of their election, will not perform that duty until the arrival of those gentleman in Washington, which will be about the 25th of this month.

Branscombe, a special messenger from Kansas, arrived last night with memorial from members of the Free State Legislature, asking Congress to protect them in their rights, which was to-day presented in the Senate by Wilson, and referred to committee on territories.

Among the additional papers sent to the Senate relative to the Governor Stevens, is one from people of Washington Territory asking for such action as will protect them in their personal rights and shield from tyrannical and despotic acts of Stevens, whose removal is anticipated.

The House yesterday passed the Senate resolution in relation to emancipation 107 to 9. The St. Louis Representatives voted negative.

The Senate of this State on Tuesday passed by 25 to 4, a resolution declaring emancipation of slaves in the State, not only impracticable but a movement towards it would be impolitic, unwise and unjust, and should be discountenanced by the people.

The Kansas correspondent of the *Democrat* reports an encounter at Tecumseh between Judge Elmore and the correspondent of the *National Era*, named Keiser. Both parties wounded, but not dangerously.

NEW YORK, Feb. 13.

Foul Persecution of a Kentucky Editor.

W. S. BAILEY, Esq., editor of the Newport (Ky.) *News*, a free paper, has been prosecuted for permitting colored people to play in his printing office. He says:

The legal prosecution coming against us at the February term (2d Monday) of our Circuit Court, for permitting the colored people to enjoy a brief period of amusement in the Hall connected with this office; and that, too, by the consent of the owners, of those who had owners, will increase, rather than diminish, the spirit of liberty in Kentucky. Some of their owners were present, and complained of no wrong, but seemed to take satisfaction in seeing them enjoy themselves.

This privilege, too, had been granted them by other persons before, both in Newport, and Covington, when no advantage of the law was taken against them; nor did we dream of the existence of such an odious law at the time.—Whether this was a trap set for us or not, we shall perhaps find out in the course of the prosecution (*persecution*).

We have seen and experienced hard times for the last two months; but the times must be sufficiently hard to deprive us of the use of our limbs before we lay down the only pen lifted against slavery in the South. The spirit of freedom must never die in Kentucky, and until abler pens and stouter hearts volunteer in freedom's cause, we shall herald the sound of freedom to the ears of the oppressor, and call forth the down-trodden of our State to enrol their names here, in the Book of Liberty, until their names shall be "Legion," and their vote triumphant in the State.

Such a spirit and determination as Mr. BAILEY evinces should be properly appreciated and endorsed. Like a bold champion, he meets the enemy on their own ground—confronts the advocates of slavery face to face—and hurls a proud defiance in the very teeth of the Southern oligarchy. Strong in the consciousness of truth, and in the justness of his cause, he never quails nor falters, but meets opposition and persecution with the spirit and courage of a moral hero.

For the sake of freedom we hope Mr. BAILEY will be generously encouraged in the enterprise of sustaining a free press on slave soil—an enterprise in which it is a proud honor to be engaged.

P. S.—Since writing the above we learn that the ridiculous proceedings instituted against Mr. BAILEY have been withdrawn.

Devastating Freshet.

The heavy rain storm of Friday, and the preceding thaw, started the deep snows that covered the hills and valleys, filling the gorges and swelling the river to an alarming extent. Saturday morning, the Kishwaukee was eight or ten feet above its usual height. The low land along the river, comprising hundreds of acres of meadow and farming land, was completely inundated; fences demolished; bridges broken down and carried off, wherever the impetuous torrent coursed. Houses, nestled in the valley, were flooded, and the inmates compelled to seek shelter on the high lands.

The bridge across the river at this place was badly injured by the large bodies of floating ice, some "cakes" measuring forty feet square and two feet in thickness. One abutment of the bridge was badly damaged, and some of the planks carried off, the water at times overflowing the floor. The water in the Kishwaukee rose two feet higher than ever known before.

The middle pier of the Beloit Branch R. R. bridge was undermined, sinking the bridge two feet in the middle.

Two bridges across the Kishwaukee, between this place and Garden Prairie, connected with the Galena & Chicago Railroad, were rendered impassable. A portion of one of the bridges, measuring upwards of one hundred feet, was carried to the distance of eighty rods from the original track. In many places the track is covered with massive blocks of ice, and large quantities of snow. The railroad bridge at Cherry Valley is reported down, and another one at that place is impassable, both crossing the Kishwaukee. The telegraph line, at intervals along the road, is broken and disconnected. Thus travel is impeded, commerce by land stagnated, and as a natural consequence business will suffer materially.

A parallel to this freshet cannot be cited by the oldest inhabitant in this part of the country.—*Belvidere Standard, 10th.*

Freak of Madness in the Vatican.

The Rome correspondent of the London *Daily News* gives the following account of the freaks of a madman who had gained access to the Vatican:

ROME, Jan. 15.

While sanguinary tragedies have saddened the inhabitants of Paris and Naples, eccentricities of a less homicidal character have amused the inhabitants of Rome, and especially the nocturnal pranks of a madman who recently gained access to the Vatican Palace, notwithstanding the scrutinizing glances of the Swiss halberdiers stationed in the grand corridor leading to the *scala regia*.

It appears that this unfortunate aberrated individual succeeded in secreting himself in the precincts of the palace until the night was far advanced, when he suddenly aroused and alarmed the inhabitants of the Apostolic residence, by vociferating in stentorian tones, that the Pope was dead, following up this startling piece of intelligence by another vague assertion that he himself was about to succeed his Holiness on the Pontifical throne, and that, as first fruit of his authority, he should order the Cardinal Secretary of State to be shot. It may be easily imagined with what consternation these overwhelming announcements were received, until the ill-omened individual was laid hands upon, and the state of his intellect discovered. The great gates of the Vatican have been closed at nightfall since this untoward occurrence.

Burning of the Theater at Washington.

[From the Washington Union.]

At 3 o'clock yesterday afternoon a fire broke out in the upper part of the National Theater, and in a few minutes afterwards the whole of this spacious edifice was in flames. The alarm was quickly communicated to all parts of the city, and, in an almost incredibly short space of time, engine, hose, and hook and ladder companies were on the spot, and engaged in the most earnest endeavors to extinguish the fire. From the combustible nature of the materials within the building, the fire spread with the greatest rapidity, and soon enveloped the whole of the immense edifice in one mass of flame. The efforts of the firemen were mainly directed to the preservation of the adjoining houses; and when we add that the printing and publication offices of the Union were only separated from the burning edifice by a narrow alley, the lively interest which we felt in their unflagging exertions may be naturally inferred. Fortunately, the fire was confined to the theater, and, although the Union office was several times on fire, through the well-directed exertions of the firemen, with the generous aid of hundreds of our citizens, no serious injury was sustained. We take occasion to offer our most heartfelt thanks to the firemen of Washington, and to the scores of kind friends who had repaired to the scene of the conflagration, for their zealous and successful efforts to save our property from the impending danger.

The Old National, as it was familiarly called in Washington, although unpretending in its outward appearance, was one of the largest theatres in the United States. It was destroyed by fire on the 5th of March, 1845, the evening after the inauguration of President Polk, and, although there was a large audience in the building when the flames were first discovered, all escaped without the slightest injury. Then, as now, the Union office was in imminent danger of destruction from the spreading flames; but then, as now, it was saved by the skill, zeal and noble daring of the firemen of Washington.

SWINDLERS IN ENGLAND.—The London (Jan. 20th) correspondent of the New York *Commercial Advertiser* says:—During the last week the criminal courts of the metropolis have been occupied with the case of Leopold Redpath, the registrar of the Great Northern Railway, for forgeries of transfers amounting altogether to about £150,000; and also that of Burgess, a guard on the London and Dover railway, for a bullion robbery to the amount of £8,000 committed a year or two ago. Both have been found guilty and sentenced to transportation for life. Robson, who was lately sentenced for forgeries of Crystal Palace transfers, is alledged to have fallen into melancholy mania. Another remarkable case now proceeding is that of a Mr. Paul, assistant clerk for more than twenty years to the poor-law authorities of the London district, who is found to have made away with about £20,000. He had a small salary, but was nevertheless recklessly trusted with the disbursement of heavy sums. A week before his detection his name had been proposed for a toast at a public dinner, among people of his own class, as that of 'honest John Paul,' probably signify the contrast between him and his namesake Sir John Paul, lately condemned to transportation for life."

THE FIRE AT LOUISVILLE.—We have already noticed the disastrous fire at Louisville, (Ky.,) by which $300,000 worth of property was destroyed. Among the exciting incidents connected with the conflagration is the following:

Col. Pearson, an aged gentleman, slept in the third story of Gallagher & Co's store. When he awoke he found all avenues of egress cut off. Bedding was placed in the street, and he took a leap from the third story window, a height of about 30 feet, and alighted on the bedding. In the fall, he struck with his feet some part of the building which projected and was injured. He broke no bones, and is in a fair way of recovery.

IS LAGER BEER POISONOUS?—Quite a discussion is being carried on in the Cincinnati papers relative to the amount of poison contained in the lager beer that is manufactured in that city. It is said that cocculus indicus—a poisonous drug—is used by all the brewers to give the liquid a bitter taste.

Commercial Affairs.

CHICAGO WHOLESALE MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, Friday Evening, Feb. 13th, 1857.

The weather is like April and the streets are full of animation; builders are at work as if summer had come; the river is generally clear of ice, and a channel is being cut with a steam dredge where it is yet ice-blocked, for vessels to pass up and down.

Private dispatches were shown us early in the day of the foreign steamer's arrival, with Liverpool dates to Jan. 28th, by it breadstuffs were steady and market unchanged; Wheat was firm with a better feeling in the market; Corn dull, market inactive; Provisions quiet; Consols 93⅝. We were also shown private dispatches to Messrs. J. H. Dunham & Co., dated New Orleans, Feb. 12th, stating that last shipments of Sugar was worth half to three-fourths cent advance—or an advance on common Sugars from 9⅝ to about 10¼c and Coffees were prime. This will not have any tendency to lower prices of Sugars in this city. In fact, New York and not New Orleans, have to be looked to for Sugars, both by us and by even St. Louis.

Two or three parties from Canada were here to-day for the purpose of buying Provisions; but little could be found at their figures, and we only learned of their purchasing some ten tons of smoked Shoulders at 8c ℔ ℔. But few dressed Hogs in market, and these retail at $8@8,50 ℔ 100 ℔s. The packing season is evidently about over.

Wheat is in small supply, particularly winter, and millers are paying better figures—$1,02@1,06 for red and $1,15@1,20 for white; four car loads of spring sold to store yesterday afternoon at 80c, and 1,600 bu at 85; to-day 85@86c is the range. Corn is in good demand in bags for railroad shipment to Michigan mills, for which 45c is paid, but in bulk to store 37@40c is the range; this will not justify it being sent in, and farmers will doubtless prefer feeding at home to hogs, prices for Pork being prospectively good as well as at present extremely high. One dealer refused to deliver Corn to Michigan cars to-day at 42c. Most country dealers lost money who bought Corn last season—these will be loth to send it in this year. It is thought, however, that St. Louis will soon be choked with Corn by the Illinois river, and it may take this way; but the present favorable weather will cause great quantities to go out to St. Louis. Oats are in better demand as high as 35c having been paid to city trade.

A much larger number of cattle than usual have been packed here since the 1st of January, the time at which the season usually closes; but still, the year's packing does not near come up to that of 1856.

See first page for important political news from California. Broderick and Gwin have been elected U. S. Senators.

Emancipation in Missouri.

The St. Louis *Republican* has a dispatch stating that, in the Senate of Missouri, a resolution declaring emancipation in Missouri to be impracticable and inexpedient, was passed by a vote of yeas 25, nays 4. This, of course, puts an end to the matter for some years.—*Chicago Times.*

You tell this, neighbor, as if it gave you great joy. And what do you mean when you say that this "puts an end to the matter for some years?" Pray, explain.

We understand why a large vote should be polled against emancipation in the Missouri Legislature, and so does every man of ordinary sense. The question is not popular as yet. Parties, therefore, would rush forward in eager haste, saying as men said in the days of Pilate, "we are orthodox—our 'skirts' are unstained by this heresy."

But what then? Except in revolutionary times, whoever knew Parliaments or Congresses or State Legislatures, out-spoken and bold?—When in the past, or where in the present, have they been, or are they, creative, morally courageous, honestly bold? It is the disinterested, hearty noble impulse and conviction of the common mind which compels them to be just, or to do justice.

This hour, then, the four heroic members of the Missouri Legislature, backed by that able journal, the Missouri *Democrat*, may be positively stronger than the selfish or coward majority who overruled them.

No! the question is up, and the interests of the white man will keep it up, until it is settled. It may require a shorter or a longer period to bring the public mind to a true sense both of its material interest and its moral duty; but it will be so brought up. No bogus resolves of craven and false legislators, no timid cry of hollow and half-starved partizans, begging for quiet—no pledge of caucus or promise of its organs, to stop, or "put an end" to the subject, can subdue the power of the people demanding its examination and discussion, or stifle the voice which would sift and expose it.

Not to be Strengthened—Emancipation in the Future.

That the slaveholders desire to strengthen slavery in the States, and mean to do so if they can, is certain. Mississippi is to lead. Already the Senate of that State has passed a bill exempting slaves from execution. We doubt if the non-slaveholders will submit to this policy even there; we doubt, indeed, whether they would tolerate it in South Carolina—but it is likely, that, in one or both these States, it will be tried.

A proposition has been made, we observe, in the Frankfort (Kentucky) *Commonwealth*, proposing to exempt slaves for debt in that State; but this journal repudiates the plan and its object, and for these reasons: that slavery is not profitable, that the laws of political economy will not permit its increase, that the larger portion of the people are not able or will not own Negroes, that only 41,000 of them are worth the value of a slave, and of these 35,000 possess them. It would rather see commerce and manufactures so flourishing that white laborers might be induced to immigrate into Kentucky, so that the wealth of the State should be increased, and its importance strengthened in the halls of Congress. The Commonwealth says:

> It is the interest of Kentucky to keep her hardy sons at home. Too many of the rose and expectancy of our fair State leave her borders every year for the far West. In this manner is Kentucky, kept in the rear of many of her sister States which possesses nothing equal to her resources, whether of agricultural or mineral wealth. In order to retain our present position among the States, inducements for white laborers must be held out. In order to fully develope the countless wealth of our mineral regions, our own sons must be induced to stay at home, and these same white laborers, whose presence our correspondent so much deprecates, must be invited to our soil, for this purpose negro labor cannot be successfully employed. We envy Massachusetts her wealth and industry, her manufactories and her free schools, instead of looking down upon her with contempt. We are jealous of the progress of Ohio, Indiana and Illinois in railroads and other facilities of rapid communication.

Very well said—but this envy will grow deeper, and that jealousy greener, unless Kentucky shall possess an intelligent free labor population. When she has *that*, her wealth, free schools, &c., will be great as Massachusetts and her progress as sure as that of Ohio, Illinois, and Indiana.

The Indiana Senators.

The *Times* professes to vindicate the legality of the election of United States Senators in Indiana. It is only by a most violent distortion or misstatement of the facts that a show, even, of plausibility and right can be thrown over the revolutionary proceedings of the Indiana Buchaneers. The truth is, the pretended election of Senators in that State is the most thorough and lawless farce ever perpetrated under the solemnity of legislation.

The *Times'* statement of the judiciary cast is a tissue of gross blunders. It says:

> The Constitution of the State requires the two branches to meet upon a certain day in January, to canvass the votes for Governor, and perform all such other duties as are required of the Legislature in joint meeting.

The Indiana Constitution does not require a *joint convention* for any purpose. It provides that the returns for Governor shall be directed to the Speaker of the House, who shall "open and publish them in the presence of both Houses of the General Assembly." It is far-fetched, violent and unnecessary construction of that clause to deduce from it a requirement of the vote being opened in the *joint* presence of both Houses. It may well be done legally in the separate presence of each.

What "other duties are required of the Legislature in joint meeting?" The Constitution provides for no other duties and for no joint convention.

The pretended joint convention at which the votes for Governor were counted was also a magnificent farce. The Senate had never passed a resolution to meet the House for such a purpose. Such a resolution was actually pending when the Democrats, without any vote or adjournment of the Senate, left that chamber and repaired to the House, and while the revolutionary Democrats were attempting the pretence of a joint convention, the Senate was actually in session.

That pretended joint convention was nothing more than a caucus or mob, and had no element whatever of legality in its proceedings, and its adjournments were a complete nullity.

The *Times* attempts to evade the force of the Iowa precedent. That was, that a *quorum* of both Houses was necessary to elect a United States Senator. The *Times* thus states the Indiana case:

> On the day set apart for the election of Senators, both branches were in session; and at the hour to which the joint convention had adjourned, the President of the Senate announced, just as he had done on several previous occasions, that the time having arrived to which the joint convention of the two houses had adjourned, the Senate would now proceed to the hall of the House of Representatives. Whereupon he and twenty-six Senators proceeded to the hall of the other House. The Senate of the State of Indiana consists of fifty members, a majority of which number is necessary to constitute a quorum. Twenty-six Senators constituting a constitutional quorum of that body, the Senate was as legally present as if the entire fifty had been there.

There are two very serious blunders in this statement which are terribly damaging to it. In the first place, only *twenty-three* Senators, (or, counting Wright, who had been previously ousted of his seat,) *twenty-four* Senators participated in the election—less than half the Senate.

In the next place, the Constitution of Indiana declares: "Two-thirds of each House shall constitute a quorum to do business." Just so more members of the Senate were required to constitute a quorum of *that* body "to do business."

Neither was there a quorum of the *House* present at that farcical election—the House lacked six of that constitutional number.

Now, in view of the facts that there was no legal joint convention at all, and if there were, that there was no quorum of *either* House present, we hold that the whole proceeding of the Indiana Buchaniers is not farcical, unconstitutional, fraudulent and void? The Senate of the United States know these facts. Illinois Legislature.

Canal Claims—Chicago City Charter—School Law Passed—Illinois River Improvement—State Sectionalism—Normal University.

SPRINGFIELD, Wednesday Evening.

The time of the Senate this afternoon was mostly consumed in the consideration of the bill providing for the payment of certain canal claims. It will be remembered that the Legislature, two years ago, instituted a commission for the examination of these, and that the three Judges of the Supreme Court were named as Commissioners. They made their report in the early part of the session, rejecting all demands upon the State, except one arising out of an old time transaction, called the Thornton Loan. This they recommended should be paid. A bill accordingly was prepared, which provided for an issue of bonds to the amount of $184,000, principal and interest, by which these just debts might be liquidated. It was the special order yesterday, and afforded opportunity for an animated debate. The Border Ruffians have set their faces against doing this long deferred act of justice, and as the probability that the claimants will be successful grows better and better, their hostility is more and more intense. Among them are honorable exceptions to the rule; but they are too few in number. Though not a party measure in any sense, the division of votes might be very correctly marked by party lines.

Messrs. Judd, Cook and O'Kean ably defended the bill, while it was ferociously assailed by Carlin, and others of his political stripe.

[We have already published a telegraphic dispatch announcing the passage of the bill.—Eds. Tribune.]

The City Charter of Chicago, as amended by the Common Council and the committee of citizens here, passed the Senate, and was sent to the House for its concurrence. It provides for one new Ward on the West Side, divided by Harrison street, and contains other and important amendments, of which I have before spoken. There are a few here, chiefly from Lower Egypt, who seem to be anxious to fix the Charter to suit supposed political necessities; but the Legislature will hardly so far stultify itself as to disregard, in this matter, the expressed will of our Senator and Representatives and an overwhelming majority of our people.

The School Law, as it came over from the House, a few days ago, was taken up in the evening and passed without erasing or amending a line. It will undoubtedly be approved by the Governor, and the Northern counties must fain be content to submit to onerous taxation for the benefit of the "far downers" of Egypt, who will not thank them for the gift.

In the House, this afternoon, the Illinois River Improvement bill was the special order. It was attacked with great vehemence by certain Egyptian members, Dougherty, of Union, taking the lead, backed up by the Representatives from Peoria and Stark—the latter influenced by a fear that, if the bill passes, Peoria will not be the head of navigation. But the attacks were successfully repelled by Mr. Arnold, who made an able and glowing appeal to the House to permit the passage of the act. He was listened to with great attention by his opponents, but, though he spoke forcibly and convincingly, his words fell upon their ears without effect. It is a measure to swell the population and increase the wealth of the North, and that is reason sufficient for opposition at the South. Its further consideration was also deferred without a vote.

Talk of "sectionalism" in the Republic!—There is not between South Carolina and Massachusetts—representatives of the two opposing principles in our government, slavery and freedom—a more deadly hostility than between the ninth and first Congressional districts in this State. It breaks out upon all possible occasions—in the personal intercourse of the members, in their speeches touching matters in which national politics are not concerned, in their views of State policy, of education and of internal improvements. I am glad to say that our men are too wise and liberal to allow this feeling to manifest itself in their acts; but when they ask for like moderation from the other extreme, their demand is refused. Take the two measures of which I have above spoken. One simply proposes to do justice to a class of much abused and meritorious men; the other to effect an improvement, without a cent of cost to the public treasury, that will give renewed vitality to the commerce of half the State, and restore the navigation of a stream that is now almost abandoned; but neither common sense or common patriotism has effect to secure a favorable hearing. They are Northern—supported by Northern men, for Northern aggrandisement, and that is enough; they were doomed before the session commenced. And so of whatever else is proposed—no matter how meritorious the measure or how strong the arguments adduced in its support—its origin not its merits, determines its fate. Were it not that the cooperation of Northern members is necessary to secure the passage of local acts in which Egypt is interested, there would be little legislation for our end of Illinois. This is harsh but it is true. Look at Mr. Dunham's Bank bill. No one brings forward a counter proposition; no one disputes the necessity for instant action; no one doubts that a crash will come if a speedy remedy for existing evils is not applied; but Mr. Dunham is a Northern man—worse than all, he is from Chicago. That suffices to secure the opposition of the Egyptians. Hold on! There is a good time coming, when ignorance, assurance and loud bellowing will pass in the Illinois Legislature for what they are worth.

In the Evening Session, the "Normal *University*" bill was the subject matter of debate. On this matter the sectional division is not so apparent. It is a measure, as regarded by some of our influential friends, of very doubtful expediency, and many, who would make liberal appropriations to sustain the cause of Education, will hesitate about voting for it in its present objectionable shape. Mr. Dougherty opposed it, as he opposes everything else, in a speech of little force or logical strength. He was replied to by Mr. Dento, of Jo Daviess, who pitched into the Buchanier Boanerges in a way that astonished himself and his colleagues. Since Dougherty sneered, one day, at some man because he was good at "hammering stone," Dento, who is a brick-layer, never neglects an opportunity to teach him that masons can hammer something else than stone, and he always enforces his lessons by illustrations that cannot be misunderstood. His last attack was bitter, cutting, and just as personal as was possible without trenching upon the rules of the House. Mr. Dougherty came off second best.

The principal speech of the evening was that of Prof. Pinckney, of Ogle, who went into an elaborate and able exposition of the merits of the bill. The Professor is himself a teacher, and is well qualified to judge of the necessity and expediency of the institution which the bill proposes to establish. His argument was clear, his facts well arranged and his appeal eloquent; but I doubt if it will have the effect he desired to produce. The House adjourned without voting.

[From our Special Correspondent.]

SPRINGFIELD, February 12.

The House passed no bills at all yesterday afternoon, and but one last night. The afternoon session was entirely occupied in the debate on the bill for an act to incorporate a company for the improvement of the navigation of the Illinois River, which had been made the special order.

Messrs. Moulton, Arnold, Boal, and others, spoke in favor of the passage of the bill, arguing that the company can be made up and the necessary capital raised without much trouble; that, whereas the river is now navigable for only from three to six months in the year, it can, after the proposed improvements are made, be navigated by average boats all the time except while it is frozen over; that it will cause a decrease in the cost of transporting freight along that route, increase the amount transported, and, as a natural consequence, add to the State revenue in the shape of tolls on the Canal.

The opponents of the bill—Messrs. Dougherty, [illegible], and others contended that the dams that will have to be erected will "back up" the water and cause it to overflow and inundate and consequently destroy a large amount of lands in the bottom; that the tolls which all vessels will have to pay at all seasons will more than counterbalance the advantage to be derived from the lengthening of the navigation season, &c., &c.

The discussion having consumed the entire afternoon until after the usual hour for adjournment, the House adjourned without coming to a vote on either the bill or the amendments, several of which had been offered.

[illegible] speeches to five minutes each being temporarily suspended.

Messrs. Moulton, Sloan, Lawrence, and Pinckney addressed the House in favor of the passage of the bill. Messrs. Dougherty and Wyche opposed it. The debate was a very interesting one; the speeches that were made in favor of the bill were able, eloquent and logical. They gave a history of the fund proposed to be appropriated by the bill, showing that the objects herein prescribed are strictly such as the fund was originally designed to carry out; that the proposed University is imperatively required to supply the want of able and efficient teachers; that the plan is by no means an experiment, it having been thoroughly tried in other States and found to work well.

The opposition contended that we have no right to use this fund—$9,000 a year—as indicated in the bill, and if we have it is entirely insufficient to carry out the scheme proposed, which is wild and visionary.

Mr. D. J. Pinckney, member from Ogle made *the* speech of the evening. It is said by some to have been the best speech of the session; it certainly has not been and cannot be excelled on this question. Mr. Pinckney has been a teacher all his life, is now a Professor in a College, and is eminently well qualified to do ample justice to a subject of this nature. Although the hour was late, it was after ten when he closed, his auditors manifested no system of weariness, and twice called on him to proceed when, fearing he was speaking too long, he was about to close.

During the discussion, Mr. Connelly, of Edgar, moved an amendment which was designed to kill the bill, and would have done so if it had been adopted; but it was promptly voted down.

The House adjourned without taking the final vote.

This morning, a number of bills were reported back from standing Committees and properly disposed of.

Mr. Sloan, Chairman of the Committee on Geological Survey, reported an original bill making an appropriation of ten thousand dollars to defray the expenses of printing the economical survey of the State Geologist; also, increasing the annual appropriation to $6,500, for the purpose of continuing the survey; and providing that the Secretary of State shall furnish suitable rooms in which to collect and preserve the specimens and maps belonging to that department. The bill was read three times and passed under a suspension of the rules.

A bill for an act ceding exclusive jurisdiction over the sites of public buildings to the United States Government was passed.

Mr. Kelsey's bill for an act to amend the Township Organization Law, was taken up and passed.

The remainder of the forenoon work was of an exclusively local character. Vidi.

NEW BOOKS.

MACAULAY ON SCOTLAND: A Critique by Hugh Miller. Boston: Gould & Lincoln. Chicago: S. C. Griggs & Co., 111 Lake-st., and Carnes & Wilson, 134 Lake-st.

Hugh Miller's works on Geology are well known—none better—for they are standard. But the warmest of his admirers would have hardly supposed, that he was able to meet and overthrow Macaulay on his own chosen field—yet so it is. For truth, not for Scotland, Hugh Miller spoke; in his belief, Macaulay had assailed both, wrongfully, and therefore he matched himself in an historical contest with *the* historian, only to make him bite the dust. This essay shows, indeed, that the geologist would have been as renowned in the historical as in the geological field if he had chosen to work in it.

Macaulay is bitter. His contempt is withering and his scorn savage. He had taunted and assailed Scotland; and, with his foot upon his native heather, Hugh Miller has silenced his contempt by conclusive argument, and made ridiculous his scorn by simple truth. The Historian is most thoroughly castigated by the Geologist. The Historian is made to stand out as the man of imagination, and the Geologist appears as the man of historic verities. Macaulay, as seen through this critique, is not a defender of truth, nor of what is truly grand or good in English or Scottish character.

Hugh Miller closes his essay tartly. He says:

> "We have heard, though we cannot vouch for the truth of the story, that Thomas Carlyle, when exhorting a friend to amuse himself, after hard study, by light reading, and being asked what works he would recommend, replied: 'Why, Thackeray's last novel, or Macaulay's last volume, or *any other* of the best works of fiction.'"

SMILES AND FROWNS: By Sarah A. Wentz. D. Appleton & Co., New York. S. C. Griggs & Co., Chicago.

We have read the advance sheets of this novel, (which have been kindly sent us) and can commend it. It is the production of no ordinary mind. The style is simple and effective; the plot natural and of a deep, abiding, and yet *present* interest; the aim sensible and the principles inculcated generous, without pretence, and pure, without cant. The smiles of life are in the book, and the sunshine which creates them. The frowns are there, too, and the causes which produce and keep them alive. We predict for this novel a wide success. It cannot fail to be generally read, and, wherever read, it will do good.

ESSAYS—BIOGRAPHICAL AND CRITICAL; or, STUDIES OF CHARACTER. By Henry T. Tuckerman.—Boston: Phillips, Sampson & Co. Chicago: S. C. Griggs & Co.

The author of this excellent volume is well known to the literary public as a writer and an essayist. What he says, he says well, and as his theme is never low and his purpose never mean, we may rest assured, that his writings will ever help the student and the scholar, and benefit the general reader.

The volume before us, with its wide biographical contrasts, is interesting and instructive. George Washington, the patriot, and Lord Chesterfield, the man of the world, are made to stand side by side. Daniel Boone, the pioneer, and Robert Southey, the man of letters, are contrasted. So are Lafitte, the banker, and Digby, the modern knight, Kean, the actor, and Koerner, the youthful hero, Fulton, the mechanician, and Constable, the landscape painter, &c., &c., &c.

Mr. Tuckermann gives us life-like biographies of DeWitt Clinton, Chateaubriand, Jeffrey, Audubon, Sidney Smith, Franklin, Governeur Morris, Sterne, &c., &c. Will you look at them?

SONGS AND BALLADS: By Sidney Dyer. New York: Sheldon, Blakeman & Co. Chicago: S. C. Griggs & Co.

Excellent of its kind. This book will help on the lovers of music and not hurt the lovers of poetry. The songs, many of them are good. They are free from sickly sentimentality and morbid feeling. They grow out of the experience of life, and teach us to do bravely in the battle of life.

MOORE'S LIFE, JOURNAL AND CORRESPONDENCE. D. Appleton & Co., New York: S. C. Griggs & Co., Chicago.

Lord John Russell, by request of the poet, has edited this work, and has done it with fidelity. Moore, all lovers of poetry remember. It is natural, then, that they should like to know him as he was—to see him in his every day life—to know him as a friend.

The edition before us consists of two large volumes. We have first the memoir of Moore's life—second, some four hundred letters, extended over the period from 1800 to 1818—third, a short account of his duel with Jeffrey—and, fourth, his Journal, kept carefully, till his last illness.

This mass of materiel will enable any reader to become fully familiar with the higher traits of his genius and the lesser or even lower traits which marked or marred his character.

One beautiful trait characterized the poet through life—*He loved home!* His passions here were strong and beautiful: they were centered round the domestic hearth. Pleasure tempted him often, and doubtless led him astray. But never did he prove false to home and the affections of home. "You have contrived, God knows how," writes Miss Godfrey to him in 1806, "amidst the pleasures of the world, to preserve all your home fireside affections true and genuine." And then, he was *independent!* No office could bribe—no proffer of advancement, silence his tongue, or change his course. His thoughts were his own, and he gave utterance to them. "I would rather struggle as I am," he said when Lord Moira proffered aid, "than take any thing that would have the effect of tying up my tongue under such a system as the present." And when he pensed these lines, he had to beg of his musical publisher a few pounds in advance to obtain the necessaries of life! The palace might be made resplendent with his genius, but it could not purchase his silence. Power might court, and did court, as well as covet his wit, but it never could subdue his independence. He spoke as he felt, and whether threatened with poverty, or flattered by the great, was always, and everywhere, *a freeman.*

These volumes will be sought after and read by those who value and those who would know the genius of Moore.

SNOW FLAKES AND SUNBEAMS; [illegible]

Canadian Politics.

Political excitement is running high in Canada. A new and powerful party has recently sprung into existence under the name and title of the "Reform Alliance," which, at present is sweeping everything before it. The following is their creed:—

The abolition of a separate line between Upper and Lower Canada; and the adoption of population, without regard to locality, as the basis of parliamentary representation; the entire separation of Church and State, and the abolition of all appropriations of public money for sectarian purposes; national education; common school, grammar school and collegiate economy in the public expenditure, and a thorough reform in the department system; uniform legislation for both sections of the province, curtailment of the power and patronage of the Executive; a free trade national policy, as far and so rapidly as the maintenance of the public credit will permit; incorporation of the Hudson Bay territory as a part of Canada; a registration of qualified voters for parliamentary elections.

All the Canadian municipal elections are attended with great excitement, and political agitation runs as high as in our country.

What the "Reform Alliance" will probably effect, or what is its actual strength remains yet to be seen.

A Relic of the "Chivalry."

Messrs. Editors of the Chicago Tribune:

A gentleman recently from Kansas who gives interesting and amusing accounts of the "actings and doings" of the Chivalrous South Carolinians, in that Territory, and who speaks hopefully for the cause of freedom there, has left in my possession a *Lone Star Flag*, taken by him at Lawrence, a short time since, from a gallant (?) South Carolinian. The flag bears unmistakable evidences of having "seen some service," and to the curious is worthy an examination.

This silken ensign of war—intended to carry dismay to the hearts of the "d——d Abolitionists"—is evidently the work of delicate fingers. It is best the lovely ones, whose tears have bedewed and whose prayers have accompanied it, should never know their boasting hero was deprived of this talismanic emblem, in consequence of a refusal to pay for his dinner! The Young Men's Fremont Club of our city should procure and keep it on exhibition at their rooms.

The "World" of Newspapers.—The whole number of newspapers published in the United States and Territories is 3,634. New York boasts 613; Pennsylvania, 419; Ohio, 382; Illinois 221, and Massachusetts, 219. Large numbers die out every year, but the births are in excess of the deaths. There are 50 newspapers published in Canada; 5 in the Sandwich Islands, and 2 in New Brunswick. In England and Wales there are 272 newspapers; in Scotland, 66; Ireland, 113; and in the British Isles and Jersey, 17—total, 468. There are about 1,500 published in Germany—about two-thirds of them mere advertising sheets. In France, out of Paris, very little is known of journalism. The whole number of newspapers does not exceed 600. There are not much more than 30 or 40 newspapers published in Spain. In Italy, number of newspapers is very small; Piedmont has two. Constantinople has 13 newspapers. In Russia, there are about 100 newspapers, and nearly as many magazines.

MINNESOTA ITEMS.

We extract a few items, concerning Minnesota matters, from the Winona *Republican*:

A man named Lord, residing near St. Anthony was found dead in his bed on Christmas morning. He was forty-nine years of age, and had no family.

A drove of fat hogs were brought into Minneapolis last fall, and slaughtered and packed to the amount of $6,000. This is the commencement of the pork business in Minnesota.

Forty acres of land, adjoining the town site of Oronoco, in Dodge county, was sold a few days ago for the nice sum of $4000 in cash. Less than one year ago this same land was entered for $1,25 per acre. Croakers can put that in their pipe and smoke it.

Another new Hotel, projected on a magnificent scale, is to be built in St. Paul next season. It is to cost $150,000.

A decision of the Central Land Office respecting a certain town site in Hennepin county makes it obligatory on the claimants of such sites, if they would secure their title, to follow up the survey with such town improvements as shall prove that the lands were selected in good faith for that purpose. Otherwise they are liable to be jumped.

Mrs. J. Travis Rosser, wife of the Secretary of the Territory, died at Alexandria, Va., on the 16th ult., after a painful illness.

Sugar Crop in Louisiana.—By a paper recently read before the Louisiana Agricultural Society we learn that the future prospects of the sugar interest have undergone an unexpected and highly favorable change.

For several years past the sugar cane has been subject to a variety of diseases, which had induced the general belief that it was fast deteriorating, and the crop before the last had been in places, seriously damaged by the borer worm, an insect often found in the West Indies, but until lately, unknown in Louisiana. The severe and long continued cold of the last winter, while it nearly destroyed the crop on hand, appears to have destroyed also that mischievous insect, and the other causes of disease, whatever they were. With rare and unimportant exceptions, the seed canes now being planted are in the best possible condition; and, as an unusually large quantity of seed has been put up, the breadth of land planted will exceed that of any previous year; and, with anything like a fair season, more than an average crop will surely be made.

With the seed cane once more sound, and the liberal aid afforded by the general government in procuring new varieties of the plant from abroad, the sugar crop may, for an indefinite period of time, be considered as certain as any other that could be grown in its place, the years 1835 and 1856 being the only two, out of sixty, in which it has been materially injured by cold.

Copper Region of Lake Superior.—From a letter, written by the Superintendent of the Evergreen Bluff mine, Ontonagon District, Jan. 6th, we get an insight into the climate of the "Upper Peninsula." Says the writer:

"We have had three through mails since navigation closed. We have been buried up in snow this winter, but the weather has not been very cold until within two or three days past. The sleighing has been good since the 28th of October. The mine looks well. The weather has been fine for two weeks past. We aim to ship twenty-five tons of copper in the spring. We have one mass cleaned, which, after cutting off over seven hundred pounds of barrel stuff, will weigh over twenty-five hundred pounds. We have been exposing a mass in the lower level. Our stamp work is pronounced first rate, and we have a large quantity on hand. We have taken out some fine specimens of silver."

Railroad Accident.—John Cozzens—a conductor—was killed on the Pennsylvania railroad on the 10th, near Pittsburgh. The manner of his death is thus stated: "It appears that the train was backing along the track, for the purpose of switching off, and Mr. Cozzens was proceeding on the top of the cars, from the front to the back of the train, to be in readiness to arrange the switch, when he accidentally fell off the hind car upon the track, and the train passed over him, literally cutting him to pieces and causing instant death."

Alien Passengers at Boston.—The Governor of Massachusetts has transmitted to the Legislature the annual report of the Superintendent of Alien Passengers for the Port of Boston, for the year ending Dec. 31, 1856. Mr. Goodwin reports that he has boarded 921 vessels having 31,912 passengers; 184 vessels were American and the others English. Of the passengers 6,523 were from the British Provinces; 6,853 from Ireland; 2,961 from England; 548 from Scotland; 198 from Belgium; 188 from Germany; 187 from Sweden; 127 from Portugal; 127 from France, and so on.

U. S. Militia.—The aggregate number of men composing the U. S. militia is 2,716,091. This, however, does not include the State of Iowa, and the Territories of Oregon, Washington, Nebraska, Kansas and New Mexico. The highest number in any one State is in New York, reaching 337,235; the next, 259,420 in Illinois; and the next, 209,126 in California. Maryland had 46,864 in 1838, and Virginia 125,531 in 1854.

Two Storms.—This city was visited on Friday night by a rain storm that was seldom exceeded in violence. The amount of water which fell was immense. Its destructive force was shown in washing up the pavements in many parts of the city. The cars were detained from starting at the usual time (on Saturday) by the washing down of the embankment upon the track, not far from the city. We judge that the storm was extensive, from the fact that the river rose four feet.—*Quincy Whig, 9th.*

THE GREATEST
MEDICAL DISCOVERY
Of the Age.
MR. KENNEDY, OF ROXBURY, HAS discovered, in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple.
He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.
Two bottles are warranted to cure a nursing sore mouth.
One to three bottles will cure the worst kind of pimples on the face.
Two to three bottles will clear the system of Biles.
Two to three bottles are warranted to cure the worst canker in the mouth and stomach.
Three to five bottles are warranted to cure the worst case of Erysipelas.
One to two bottles are warranted to cure all humor in the Eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two to three bottles are warranted to cure the worst cases of ringworm.
Two to three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure salt rheum.
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.
Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising: first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.
In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.
Some of the wholesale druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.
In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.
Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.
I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.
No change of diet ever necessary—eat the best you can get and enough of it.
DIRECTIONS FOR USE.—Adult, one table spoonful per day. Children over eight years, desert spoonful; children from five to eight years, tea spoonful. As no directions can be made applicable to all constitutions, take enough to operate on the bowels twice a day.
Price $1. Manufactured by DONALD KENNEDY, 120 Warren Street, Roxbury, Mass.
Wholesale Agents.—New York City, C. V. Clickner, 81 Barclay street; C. H. Ring, 192 Broadway; A. B. & D. Sands, 100 Fulton street.
T. W. Dyott & Sons, Philadelphia; S. S. Hance, Baltimore; Geo. H. Keyser, Pittsburg; A. B. Moore, Buffalo; Hugh Miller, Toronto; Lyman & Brother, Toronto; John Birke, Montreal; Penton, Fisher & Co., Penton & Robinson, Chicago; J. H. Reed & Co., Chicago; John William, London, C. W.

Winter Extension.
IN compliance with many urgent solicitations, CALVIN M. FITCH, late of New York, author of the "Invalid's Guide and Consumptive's Manual," has concluded for the convenience of his Western patients to remain in CHICAGO during the present Winter.
Invalids of the West, especially those laboring under Complaints or Diseased disease of the Throat, Lungs or Heart, Dyspepsia, or Female Diseases, may now avail themselves of Dr. Fitch's system of treatment without the expense, fatigue or delay of a visit to New York.
DR. C. M. FITCH desires that the public may not confound him with his former associate, Dr. S. S. Fitch, as no business connection longer exists between them, and as he claims the full credit justly due him for the greatly increased success which has attended his improvements upon their former mode of treating pulmonary affections.
Daily office hours from 10 to 4, excepting on the Sabbath and the afternoon of Saturday, and forenoon of Monday, of each week, during which none but the most urgent cases can be attended to.
Consultation, personally or by mail, Free.
Communications may be addressed,

COUGHS, HOARSENESS AND BRONCHITIS.—Brown's Bronchial Troches, when allowed to dissolve slowly in the mouth, have a direct influence to the affected parts; the sedative and soothing effect to the mucous lining of the windpipe into the Bronchi, allays Pulmonary Irritation, and gives relief in Coughs, Colds, Asthma and the various Throat Affections to which Public Speakers and Singers are liable.
"We have been accustomed to use Brown's Bronchial Troches for five or six years past, and do our clerical brethren a real favor in calling their attention to them. They are of great service in allaying Bronchial Irritation, and in subduing hoarseness produced by colds. When the vocal organs are out of tune, they are indispensable to the public speaker."—Zion's Herald.

CRISTADORO'S HAIR DYE.—This great chemical discovery has taken precedence over every other preparation for changing the color of the Hair. The public have realized by experience the important fact, that while it imparts the most perfect and natural black or brown, it does not impair the softness and elasticity, or arrest the growth of the hair. Free from all caustic ingredients, it neither stains the skin of the head, dries up the moisture circulating through the fibres, nor emits any unpleasant odor. The application is given and dried in ten minutes, in any weather, and the rich natural hue imparted to the hair of the head, the whiskers and moustaches is uniform to a shade in every filament. Hence its popularity, and the wonderful rapidity with which it has superseded other dyes, throughout the United States.

CATARRH!—WHAT IS IT?—Has it ever been defined?—Do physicians understand it?—If it has been clearly and pathologically defined—if the Faculty understands it, then, a Remedy effective, positive and radical should long since have been devised for its removal. But the reverse of this, is unhappily the fact! It has never received a common sense definition—has never been clothed in the vestment of true pathology.
The Medical Literati then, have failed to cure it. Have quack nostrums, in the form of "Snuffs," been more successful? The dupes of such imposition can best answer—They never cure!
Can it be cured? Yes.
Goodale's Errhine, in liquid form, and simply to be inhaled into the nostrils, will positively and radically cure Catarrh! Innumerable tests and trials have confirmed the truth of this statement, beyond captious doubt or successful controversy.
The Remedy may be obtained at Chicago, of PENTON, FISHER & CO., Druggists, Sole Agents, 94 Lake street, corner of Dearborn, with directions for using. de4-3m,[illegible]

CRISTADORO'S HAIR DYE.—This great chemical discovery has taken precedence over every other preparation for changing the color of the Hair. The public have realized by experience the important fact, that while it imparts the most perfect and natural black or brown, it does not impair the softness and elasticity or arrest the growth of the hair. Free from all caustic ingredients, it neither stains the skin of the head, dries up the moisture circulating through the fibres, nor emits any unpleasant odor. The application is given and finished in ten minutes, in any weather, and the rich natural hue imparted to the hair of the head, the whiskers and moustaches is uniform to a shade in every filament. Hence its popularity, and the wonderful rapidity with which it has superseded other dyes, throughout the United States.

CATARRH!—WHAT IS IT?—Has it ever been defined?—Do physicians understand it?—If it has been clearly and pathologically defined—if the Faculty understands it, then, a Remedy effective, positive and radical, should long since have been devised for its removal. But the reverse of this, is unhappily the fact! It has never received a common sense definition—has never been clothed in the vestments of true pathology.

The Medical Literati then, have failed to cure it. Have quack nostrums, in the form of "Snuffs," been more successful? The dupes of such imposition can best answer.—They never cure!

Can it be cured? Yes.

Goodale's Catarrh Remedy, in liquid form, and simply to be inhaled into the nostrils, will positively and radically cure Catarrh! Innumerable tests and trials have confirmed the truth of this statement, beyond captious doubt or successful controversy.

Hugh Miller—His Last Work.

Our readers have already been made acquainted with the melancholy intelligence of Hugh Miller's death. From the papers received by the last steamer, it appears that the event had created a profound sensation throughout the British Isles. A London correspondent, under date of Dec. 29th, says:

"On the Sabbath following the event, sermons in reference to it were preached in the Edinburgh churches by Drs. Guthrie, Hanna (Dr. Chalmer's biographer), Hetherington, Berg and Tweedie. At Cromarty, Hugh Miller's birthplace, the news was received on the day when a grand Free-mason's celebration was to have taken place; and the festival postponed. The funeral took place on Monday, Dec. 29th, and was one of the most imposing demonstrations of the kind ever witnessed in Edinburgh. One paper states that there could not have been less than four thousand in the procession. Another says, that although the day was one of the dreariest of the season, "it had been informed that the attendance was even greater than on the occasion of the funeral of Dr. Chalmers in 1847."

Among the private company that assembled at the residence of the deceased, on the occasion, were the Lord Provost of Edinburgh, A. M. Dunlop, Esq., and A. Black, Esq., Members of Parliament, Professors Simpson, Balfour, James Buchanan, Fraser, Principal Cunningham, and about fifty other distinguished men. Among the pall-bearers was Mr. Miller's oldest son, a boy about fourteen years old, who was accompanied by his younger brother, six or seven years old. The body was laid in the Grange Cemetery, in a line with the graves of Dr. Chalmers, Sir Andrew Agnew, and Sheriff Speirs. The situation is said to be one of surpassing scenic beauty, and was described by the deceased's own matchless pen on the occasion of the burial of Chalmers. We are permitted to make the following extract from a letter just received by Messrs. Gould & Lincoln from Miller's Edinburgh publishers:

"His death has created an overwhelming sensation, not only in Scotland, but throughout the three Kingdoms. His funeral on Monday was one of the most impressive sights ever witnessed in our city. The whole of the shops in the line of the procession were closed, thousands of people lined the streets, tears might be seen in many an eye, and every face bore evidence of a national calamity. Leaving out Chalmers, there can be no doubt that the greatest Scotsman since the days of Burns has just passed away. The event is too recent for us to realize our loss, and, indeed, we can scarcely trust ourselves to pen these lines. The whole of Scotland weeps for him as one of the noblest of her sons. There is likely to be the greatest possible sale of his new work, the latest title of which we are assured we did not advise you. It is to be called "The Testimony of the Rocks; or Geology," etc., as formerly indicated. Mr. Miller found that the title he chose at first had already been appropriated to a geological work, and therefore felt compelled to change the title. So great is the demand likely to be that we have arranged for the printing of a second edition, although the first cannot possibly be ready for three weeks.

"You will be gratified to know that the whole of the work, even to the preface, was completed before the sad catastrophe. Indeed, the last slips were dispatched by post from the printing office on the morning of his death. A few of the cuts are unfinished, but we hope to be in possession of the whole of them by the middle or end of next week. We sent on Saturday a few additional sheets and casts, which we trust will reach Liverpool in time for Saturday's mail, and we shall lose no time in sending the remainder, as our object is now to get the work out with all possible dispatch. We think it right to inform you that Mr. Miller was highly gratified with your offer for the first copy of the work, and expressed, in the warmest terms, his sense of the gentlemanly manner in which it was made!"

The work here alluded to has already been announced to our readers under the title of "The Sermons in the Stones," which, as it now appears to be changed to "The Testimony of the Rocks." Every admirer of the lamented author will rejoice to learn that Messrs. Gould & Lincoln are preparing to issue it with all possible dispatch. Four hundred pages of the letter-press, together with the greater part of the casts for the engravings, have already been received by them. It will be the largest work on geologic science, and also the most popular in subject and treatment, which has yet proceeded from that gifted pen. Among the topics to which a separate and elaborate discussion is devoted, are Moses' Vision of the Creation, Bearing of Geology upon the two Theologies, natural and revealed. The Noachian Deluge, The Discoverable and the Revealed, &c.

We are given to understand that the American edition will probably be prefaced with a detailed account of the author's last days.—*Boston Atlas.*

Hurricane in the Philippine Islands.

The *Moniteur de la Flotte* publishes a letter from Manilla, dated the end of November, giving the following details of the late hurricane in the Philippine Islands:

About the middle of last month, we had very heavy gales from the westward, but, about the 24th, the weather became more calm and the wind veered round to the south. On the 25th there was a complete calm, with particular indications which are well known to the inhabitants as presaging some violent collision of the elements, and considerable uneasiness prevailed. In the morning of the 27th the wind rose suddenly and went on increasing in violence during the whole of the day, and became, at length, one of the most terrific hurricanes that had ever been witnessed in the country. Trees were torn up by the roots, houses carried away, and men and animals in the fields dashed to the ground with terrific violence. All the island of Sunda is literally ravaged, and the town of Manilla only presents the appearance of a heap of ruins; the quays and houses along the banks of the Passig have been blown into the river; in the capital alone, upwards of 5,000 houses have been destroyed. All the archipelago of the Philippines has suffered; Mindanao, Soulou, Palaouan, Leyta and Panay have been completely desolated. On the small island of Samar, where there were 350 buildings, not a house or tree now remains—all have been swept away. Boats which had been previously on the shore have been since found several miles inland, and a small river in the southern part of the island has been dried up by the force of the wind. On the glacis of the city of Manilla some guns were blown from their carriages, and carried to a distance of more than 100 yards. The number of houses destroyed is immense, far greater than was at first supposed. The loss of vessels on the coast is not yet known, but it must have been very considerable. This hurricane, which lasted altogether about eight hours, exceeded in violence that of 1776, and was felt in all the Philippines at almost the same moment. It has been also felt at Borneo and the Moluccas and as far as Java, but in a less violent degree.

WOMEN IN THE INTERIOR OF AFRICA.—One of the most curious, though, perhaps, not among the most important, of Dr. Livingston's observations, is the extreme estimation in which the female sex is held in the interior of Africa. It does not seem to be an exception to the law of human depravity which ensures the oppression of the weaker, wherever Christianity has not ameliorated the condition of nature. It is probably rather a fresh instance, in which the usual proportions of strength are exchanged between the sexes; though, perhaps, not to so perfect a degree as to enable the dominant sex to tyrannize with excessive severity. As it is, however, the women take decidedly the lead, and are in the ascendant. The wife takes her husband home to live with her from his own house, or even village, and obliges him to pay heavy tribute to her mother. His service is something like Caliban's, being obliged to provide her with fuel, which often has to be transported, on his back, from a great distance. The wife is, however, restrained from beating her husband by being compelled, as a punishment for each offence, to carry him on her back, on which occasion the other women cry, "Beat him again." No man undertakes anything whatever, before consulting and satisfying his wife. She can divorce him, and take the children. The women are frequently made chieftains.

A YANKEE TALKING LIGHTNING.—An engine on the Pittsburgh, Fort Wayne and Chicago Railroad, broke down last week at 9 o'clock at night, nine miles distant from a station. The conductor instantly started on foot through the snow to get another machine. A telegraph operator in one of the cars, named Stager, (of course a Yankee) hearing the cause of the detention, got out and taking down the main wire from the pole alongside the track, cut it,—attached small brass wires to the two ends,—"dotted" the distresses of the train to Pittsburgh and Brighton stations; and putting one of the brass points to his tongue, read the answer that an engine should be immediately sent, and then talking off this pleasant lightning to his anxious and impatient fellow passengers.—*Alb. Journal.*

TERRIBLE TRAGEDY—FIVE PERSONS KILLED.—On Monday of last week, in Chesterfield county, Va., five persons, four black men and a white lad, were let fall down into the Black Heath pits, by the machinery giving way, and all were fatally injured. Mr. Job Atkins was at the "pit head," seeing to the safety and due order of everything. He remained there until the men had descended about half way, when he turned from it, but had hardly done so, before it was obvious, from the stoppage of the engine, that something was wrong. It was soon discovered that the cage which contained the men had, by some means or other, become detached from the rope and fallen down the shaft, a distance of about three hundred feet. Three of the men were instantly killed, and one survived about ten minutes, and the other about thirty minutes.

SINGULAR CASE OF MARRIAGE.—A correspondent of the Abingdon *Virginian*, writing from Marion, Smythe county, relates a singular case of marriage. He says:

"We have, within half a mile of this place, an individual who has remained in one position (flat on his back) for 18 years or more. His joints are as stiff as though he had never had any. He can move his head slightly, can move his hands a little, is unable to eat a single mouthful unless put into his mouth by another person; is fat, very hearty and cheerful; and, is raising a family of children. The clergyman who married this man said he had some scruples about it until he had a long conversation with both the parties. He saw they were bent on being married. The young lady stood by the bed of the groom (she could not take his hand, for he could not reach it out) and they were made one."

A Fighting Family.

A correspondent of the Baltimore *Patriot*, writing from Towsontown, a village in the vicinity of Baltimore, relates the following:

This evening our little village was thrown into great excitement by the intelligence that a party were brought before one of our county magistrates for resisting officers, threatening to kill, &c. The facts in the case are startling and sympathetic; it is charged that a certain Abraham Rider, of this county, seduced a Miss Fuller, residing on the Falls road, some eight miles from the city, and her two brothers, Charles and Robert, who are at present residing in Baltimore, came out to their father's house on Monday last for the purpose of ascertaining facts in regard to the case and getting revenge. Between three and four o'clock on the following morning they went to Rider's dwelling and got into the house, and as soon as they laid eyes on Rider they both presented revolvers at his head and told him that he should go with them and marry their sister immediately or they would have satisfaction on the spot; but sooner than accused would consent to meet his God on so short a notice, he concluded to comply with their proposition to marry; therefore the two heroes and vindicators of their sister's character took their captive to their father's residence, where the injured sister awaited their arrival. However, before a minister could be procured, information reached Rider's brother, (a juryman at our court here,) who immediately made complaint to the proper authorities, and sent the Deputy Sheriff, Mr. T. Schnoffield and Constable R. S. Blackley, to not only liberate his brother, but save him from the forced marriage. These two energetic officers put spurs to their horses and started at full speed to liberate the forced groom and bring the parties to justice. When they arrived at Mr. Joshua K. Fuller's house they found the door barred, and, on asking for permission to enter, heard a voice inside say, "Charles, look out for the door," to which some one replied, "I will take care of that," but the door was opened by the young lady and the officers rushed in.

As soon as Mr. Blackley entered the house, he heard a pistol report in the passage, but he did not know who was fired at. After he and the deputy sheriff ran in the first room, they seized Messrs. Joshua K. Fuller, the young lady's father, (who surrendered,) and Robert Fuller and Chas. Fuller, her brothers. The latter resisted, and Charles drew a pistol on Blackley, but the old lady (Mrs. Fuller,) knocked it out of his hand, or else Blackly would have been a corpse. At this moment, Mr. Blackley drew his revolver to shoot his antagonist, but Mrs. Fuller running between them prevented him from firing. A lucky occurrence, or Charles Fuller would this night have been a corpse. It appears that the whole party, father, mother, sister and brothers, were determined on compelling Rider to marry, or avenge the wrong by murder. Even Mrs. Fuller, an old lady, had two pistols in her hands, and was determined to shoot Rider for the wrong he had done, and when prevented by the deputy sheriff, made an effort to put a ball through her own heart.

All the parties, however, were brought to the Court House, and bail given as follows: Robert and Joshua K. Fuller gave bail to the amount of $2,500 each to keep the peace, and in particular towards Abraham Rider, for six months, and $1,000 to appear at court.

Charles Fuller is yet in custody of the sheriff, his bail not yet having arrived. He is held to bail in the sum of $5,000.

It is asserted here that Miss Fuller will enter a suit for damages and breach of promise against Rider. Great sympathy prevails here in behalf of Miss Fuller, and those who were engaged in assisting her in getting revenge for the wrong done.

Sawyer's Fluid Extract of Bark

AN INFALLIBLE REMEDY FOR THE
FEVER AND AGUE,
And the Various Forms of
BILLIOUS DISEASES.
Intermittent; Remittent; Chill Fever and DUMB AGUE,
Having their origin in Malaria of very fertile or marshy districts.

PREPARED BY DR. S. SAWYER, AND sold by SAWYER, PAIGE & CO., Druggists and Chemists, 74 Lake street, Chicago.

This remedy is prepared entirely from vegetable substances and contains no mercury, arsenic, or anything that can prove injurious to the system. Its effects are those of a deobstruent and tonic, well adapted to restore the healthy action of the stomach, whose functions are so generally impaired in this class of diseases.

Quinine and other tonics, serve only in many cases to break the chills but do not remove the diseases of the liver and other organs, implicated on which the chill and fever depend, hence the usefulness of the "Fluid Extract of Bark," (particularly in regions where physicians cannot be readily consulted), which contains all the qualities needed to the indications of these maladies.

Hundreds of testimonials in regard to the efficacy of the medicine from persons of respectability, have been given to the proprietor—but he does not make use of them, as he prefers to have the medicine introduce itself solely by its merits.

Price $1 per bottle; 6 bottles for $5.

MOORE'S LIFE COMPLETE.

S. C. GRIGGS & CO.
Have now for sale—
Memoirs, Journal and Correspondence of
THOMAS MOORE,
EDITED BY
LORD JOHN RUSSELL.
2 vols. royal 8vo, cloth, $4.50.

OPINIONS OF THE PRESS.

"Who has not heard of Tom Moore, the Irish Poet? To all who have ever read his popular Melodies, this new work will prove exceedingly interesting, especially the autobiography of the poet, from his earliest recollection to manhood. We heartily recommend it."—New York Courier.

"Thomas Moore is the last of the great poets that flourished in the beginning of the century. A biography of him, so ably written, must be eagerly sought after.—New York Com. Adv.

"This work has been looked for with much interest by the admirers of the sweetest bard of modern times. The work has not disappointed us. The sparkling vivacity of Moore's letters will recommend them as models of style to those who aim at eminence in epistolary correspondence."—Albany Register.

"Everyone who has the least taste for elegant literature will at once procure a copy of the work."—Charleston Courier.

"Lord John Russell has worthily redeemed an early promise made to his poet friends, to edit his papers if he survived him."—Palladium.

"Every one who has the least taste for elegant literature will at once procure a copy of this work."—Chicago Press.

"Moore the man once more in the vigor of manhood to tell Moore the poet and others listening to what he has to say of himself, will once more, and yet once more, prepare, to say their say of him. Two or three carriages followed an old body to its grave not long ago—a spirit that once tabernacled in that body, is now before us, ushered into the world's presence by the Lordly John. So the world wags. So let it."—Rochester Democrat.

"It seems to us that Lord John Russell has prepared a very creditable work indeed. He evidently entered upon it con amore, and has, we think, pursued it to the end with fidelity, enthusiasm, and accuracy."—British Colonist.

"The work has two great attractions—one on the subject, the other, the editor. But one cannot look into it without seeing that it answers fully the highest expectation that could be legitimately formed of it. The work will, of course, be a gem in the literature of the day."—Albany Argus.

"That it is edited with ability, the name of England's great statesman is a guarantee."—New York Churchman.

"Moore's Life, by Russell, presents a striking picture of English life, such as came within the observation and experience of the poet."—Southern Christian Advocate.

"Tom Moore has just such a soul as would pour its fullness in a diary of daily life, or a friendly correspondence and those who have loved him for his human nature will not be disappointed in his memoirs."—Nachitoches Chronicle.

"We have here the minutiæ facetiæ et cetera of one of the most versatile, voluptuous and melodious bards who ever sang. His intimacies with all the geniuses of the day, whether they were poets, artists or statesmen, and the naivete with which he bonnily rattles away, about everything in his own literary life, or his social either, to which latter we can but be amused at his bon vivant propensities, have in his style of narrating them much in go of a charm for us than we generally find in the private life of men of genius, even where the curtain is as decorously drawn aside as we find it here."—Saturday Budget.

THE PARAGREENS IN PARIS; ON A Visit to the Universal Exhibition of 1855. By the Author of "Doctor Antonio," "Lorenzo Benoni," &c. With illustrations by John Leech. 12mo, cloth. Price 75 cents.

Here is that Brown-Jones-and-Robinson flavor which smacks so strictly of Punch, and the racy designs of John Leech float through the whole, like rings of inviting lemon. In following the comfortable cockneyisms of our Paragreens in Paris through all the new situations in which they are continually being caught, we sympathize with their well-fed independence; and while we laugh at their blunders and perplexities, cannot but admire the extent of the family resources. The reputation of the clever author of "Lorenzo Benoni," and "Doctor Antonio" loses nothing in the sprightly inventions of this attractive little volume.

Fire and Water-proof Cement ROOFING.

W. E. CHILDS & CO.'S PATENT.

WE ARE NOW PREPARED TO PLACE W. E. CHILDS & CO.'S

Patent Fire and Water-proof Elastic Cement

ROOFING,

Upon buildings of all descriptions in this City and County, and solicit orders from builders and others.

This is the only Roofing material yet discovered which will successfully resist the action of the weather in all climates. It is perfectly fire and water-proof; and, in point of durability, superior to any other material now in use—except tiles, and these are by far too costly for ordinary buildings.

We can put it on over tin, tar, iron or shingles, it making NO DIFFERENCE HOW FLAT OR STEEP THE ROOF MAY BE. This Roofing is warranted to prove as above represented. We will put it on for $6 per square—(10 feet square)—being as cheap, if not cheaper, than shingles.

We invite all who are building, or who wish the roofs of their buildings repaired, to call at the Agency of the Ætna Insurance Company, on South Water street, at the foot of Lasalle, where all information will be cheerfully furnished.

THE EXTRAORDINARY PATRONAGE bestowed upon this long established and popular institution, affords gratifying evidence that the superior advantages and facilities it affords for the acquisition of a thorough knowledge of the various branches of a Commercial Education, are favorably appreciated by a discerning and intelligent community.

Over two hundred full course students have been in attendance during the past winter, which is an amount of patronage unparalleled in this country.

The Collegiate Course is the most extensive, complete and thorough ever introduced into any Commercial College in this country, and comprises practical instruction in Book Keeping and Accounts adapted to every kind of business, including an elaborate work on Railroad Book Keeping and Accounts, prepared by the President of this College, (formerly Cashier of the Michigan Central Railroad Co.,) expressly for its use: a knowledge of which to the student is, alone, worth to him more than the tuition fees paid for the entire course, together with commercial calculations pertaining to the Counting Room, Business Penmanship and the subject of Commercial Law.

The design of the institution being to qualify its students for the practical and intelligent discharge of an accountant's duties, the school is therefore considered a Counting Room, and the students at once introduced to the workings and routine of business.

The school is in continued session, and students being instructed individually and not in classes, may enter whenever they please, and each student is entitled to a life scholarship.

In addition to the able corps of instructors employed in this College, valuable acquisitions have been made by the association of Thomas J. Sloan, Esq., late of Pennsylvania, a graduate of one of the first Eastern Colleges, and a professional teacher of high rank and much experience, who will superintend the Counting Room Department; by the appointment of Hon. Andrew Harvie, Prof. of Political Economy and Laws of Nations; and also by the engagement of Albert Kidder, Esq., the popular American Card Writer, as Prof. of Penmanship, whose specimens of penmanship received the highest premium at the great State Fair held in New York City in 1854.

Arrangements are made for the delivery at Metropolitan Hall of a series of free public lectures, during the ensuing winter, by several of our distinguished citizens, who have kindly and generously consented to co-operate in the enterprise. The course will be similar to that delivered before this college last winter, which elicited the highest encomiums of the public and the press.

No expense or effort is spared to render the Institution worthy of the liberal and general patronage bestowed upon it, and an ample guaranty is afforded of the ability of the school to impart in the most thorough and practical manner, instruction in the wide range of useful study pursued in its various departments.

Students being instructed individually, and not in classes may enter whenever they please. Circulars and Catalogues furnished gratis, on application at the college.

JUST PUBLISHED,

THE UNFORTUNATE'S GUIDE, GIVING directions where to obtain Medical aid, and containing astonishing facts and thrilling and interesting information never before in print. By Doctor WM. THOMSON. Price twelve cents. Upon the receipt of four postage stamps, the book shall be forwarded free from observation, to any address in the United States or Canadas. As it contains important private information for both sexes; the author received, through the Post Office during the last month from various parts of the country and city, over three thousand orders for as many copies, evidently in the hand writing of females, and fictitiously signed, for the purpose of preserving their incognito. It is no "catch penny," but abounds in startling and interesting truths, extracted from the author's diary and case books, the result of thirty year's practice in all climates, in the treatment of diseases of the sexual organs, which gave him better opportunities than those possessed by the Roman Catholic Confessor, to look behind the curtain.

Address Dr. Wm. Thomson, Box 72, Chicago, Illinois.

DR. HUBBELL,

Proprietor of
Chicago Medical Infirmary,
80.........LAKE STREET.........80

DR. HUBBELL BEGS LEAVE TO INFORM the public that, in consequence of the great increase of business which has attended his practice for the last year, he has been obliged to enlarge his professional rooms. Connected with his office, he has now five rooms, with private entrances for the reception of patients, who thus are enabled to escape all publicity and annoyance.

In the treatment of all cases which have come under his supervision, in which the patients have strictly followed his instructions, he has been eminently successful, and has thus obtained the large practice which he now enjoys.

It is folly for those who continue to indulge in evil practice and self abuse, to expect any physician, and to such he can offer no inducement, or hope of cure. He has had an experience of thirteen years in the treatment of private diseases in their most aggravated forms, and with a thorough scientific and practical experience in this most difficult department of surgery, has attained an eminence which but few possess.

Think and reflect upon the fact, that an inexperience of physician is worse than none at all, and that it requires constant attention to private diseases to acquire a competent knowledge of their treatment. Therefore, pay no attention to quacks, who have no reputation in the city, and cannot appeal to persons whom they have cured. It is far better to go at once to those who understand the disease in all its minutia.

Dr. Hubbell's practice in New York Hospitals has made him familiar with the treatment of Syphilis, Gleet, Gonorrhea, Strictures and all mercurial affections. He has treated cases of debility of the most alarming nature, as his mode of treatment is entirely different from that of other physicians, he using no obnoxious or injurious drugs which, although for a time they may appear to revive the sinking frame, strike a death blow to the constitution. His remedies are so put up, that they can be taken without the least inconvenience or diet, and leave no bad odor to the breath. They will also never interfere with regular business avocations.

Dr. Hubbell will tell his patients plainly upon the first examination whether a cure can be obtained, and unless able to warrant a cure will charge nothing for the examination.

FEMALE DISEASES.—Ladies may visit the Dr., with perfect confidence, as he has rooms especially for their treatment, and can cure suppressions, leuchorrhea, and all irregularities quickly and effectually, without pain or inconvenience.

Having been long established in this city, he can appeal to all for a certificate of success, which should have great weight with the unfortunate.

Persons living at a distance, by giving a plain statement of their cases, will be attended to punctually, and medicines forwarded by express to all parts of the United States.

Daguerreans.

HESLER'S

Daguerreotype, Photograph & Fine Art Gallery,
Nos. 22, 24, 26 & 27, Metropolitan Block, La Salle St.

THE SUBSCRIBER TAKES PLEASURE and pride in being able to announce to the public that his magnificent establishment is now in complete and successful operation, and Chicago can now boast of the most extensive and beautiful Photographic Gallery in the world—fitted up at a cost of twenty thousand dollars. It contains all that is new and beautiful in the Photographic art. The light and the arrangements for the production of the finest gems of life and beauty, are arranged on the most approved and scientific principle, and are the result of years of untiring labor and study. The success of the unrivalled Pictures produced are abundantly attested by the praises of the public, and the awards of the highest prizes in every Fair or place where these Pictures have been exhibited.

Every style of Photographic Pictures is here produced in its highest perfection. Hesler's Daguerreotypes are too well known to require a word of mention. Hesler's Crystalographs, or Daguerreotypes on Glass, by some called Ambrotypes, and claimed to be imperishable, are here taken in their highest perfection.

Hesler & Joslin's Photographs are taken in every style and size, from the smallest miniature up to full life. These are taken on Ivory, Paper and Canvas—the life and cabinet sizes on canvas are made precisely like any other first class oil painting, with the exception that the drawing in all the faithfulness and beauty of light and shade is made with the Daguerreotype Camera, thus giving a more perfect likeness than is possible to attain by the old method of Portrait Painting.

Persons having Daguerreotypes of deceased or absent friends, can have them copied of any size and with all the beauty and fidelity of nature.

The Public are cordially invited to visit the Gallery, and see its productions.

Wines & Liquors.

POST & THOMPSON,

43 Franklin St., bet. Lake & Randolph,
CHICAGO.............................ILLINOIS,
IMPORTERS OF
BRANDIES, WINES AND SEGARS.
Also, Agents for the
Central Society of Vineyard Proprietors
—OF—
Cognac Brandies from the Growers Direct.

ONE OF THE PRINCIPAL AND GREAT causes of the high price of Brandy in this market is the indirect source from which it is derived. Nine-tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, and at much advanced prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product, a union of Brandy growers in France has been accomplished with the view of shipment to the United States.

The name of the consolidation is the Central Society of Vineyard Proprietors of Cognac, under the management of a president and a committee of inspection of eight members. The society itself numbers five hundred vineyard proprietors amongst them some of the most influential noblemen in the neighborhood of Cognac, who contribute under certain by-laws, the entire growth of their vineyards to the general fund of the society, the present capital of which is 6,000,000f.

The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment upon the subject; nevertheless, it may be worthy of observation that few features in this society possesses a more striking claim to public attention, than the fusion of interests affected between buyer and seller. Since all are shareholders, it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for shipment of the best qualities of Brandies. For this purpose a clause introduced into the statutes (article 40) renders it imperative that shareholders should supply the society with the very best Cognac Brandies, otherwise they incur the liabilities of an entire forfeiture of their shares. The undersigned agents in the United States for the Central Society of Vineyard Proprietors of Cognac would solicit the attention of

DRUGGISTS, MERCHANTS, HOTEL KEEPERS, GROCERS,

And others, to the vintages now on hand, confident that they will compare more than favorable with any article in the market, and at prices far below the standard even of ordinary Cognac. And as we import our Brandies direct to Chicago, we are enabled to sell at a less price than any other house in the city. The different vintages can be had in bond or duty paid.

BYRON E. DYE is authorized to collect all subscriptions for the Daily Tribune, in this city.

☞ Country weekly newspapers can receive our Daily in exchange by paying a difference of five dollars per year, in advance, and our Tri-Weekly, by paying two dollars, in advance. To exchange with our friends in the country who solicit us to do so, would impose an unreasonable tax upon us, and we are therefore compelled to make a charge sufficient to protect us from actual loss.
